Solid background in Problem Solving, Process Migration, and Data Administration; at the moment, developing strong skills in Web Development and Web Design. Recognizing the importance of Design and Coding knowledge, I have already gained experiences in Frontend / Backend projects. My learning path is continuously evolving toward new frameworks and libraries covering the technical side, the graphical aspect and the UI/UX interaction. My activities are also involving areas related to Blockchain, 3D environment and Design Thinking. Overall, creativity and technology are my main focus and area of interest.
